

CHANGHUA CHEN YING OIL MACHINE CO., LTD

Since 1978

TAIWAN BEST BRAND CENTRALIZED LUBRICATION SYSTEMS

Taiwan Excellence Certificate
ISO 9001 Certificate

CHANGHUA CHEN YING OIL MACHINE CO., LTD

TAIWAN BEST BRAND CENTRALIZED LUBRICATION SYSTEMS

The Leading Brand in Industrial Lubrication Systems

Changhua Chen Ying Oil Machine is the leading brand in the centralized lubrication systems industry. The company was established in 1978, specializing in oil and grease lubrication products, such as manual lubricators, electric lubricators, oil pumps, oil and grease distributors, and a complete range of accessories.

With more than 35 years of professional manufacturing expertise, the Chen Ying R&D team can specifically customize the products to meet the customers' specifications and requirements. In addition, Chen Ying continues to develop new products every year in order to meet the market demand for efficiency and quality. Since inception, Chen Ying has been widely acclaimed by the machinery industry, and has achieved a domestic market share of over 50%. It maintains stable annual growth despite global economic fluctuations, and currently holds the position as a top Taiwanese centralized lubrication systems manufacturer.

"Integrity, Professionalism, and Quality" Receives Much Attention and Care

Whether in market share, quality, innovation, management, or service, Chen Ying is a pivotal manufacturer of industrial lubrication systems. An image of "integrity, professionalism, and quality" is deeply rooted in the mind of Chen Ying's customers and through the years has received a high degree of recognition and trust. Currently, Taiwan's machine export value is among the top 5 in the global market, and approximately 50% of this machinery equipment is equipped with Chen Ying lubrication systems. Chen Ying is not only committed to enhancing the quality of domestic lubrication systems but also brings the best products to Taiwan machinery industry. Chen Ying believes that work with devoted passion and business partners together can boost Taiwan economy through perseverance and hard work even during the global recession. Chen Ying's products have been marketing world widely, such as Europe, the U.S., Asia, Middle East, and continues to expand. When participating in international machine tool exhibitions, Chen Ying is always a must visit booth for attendees from around the world.

Committed to Pursuing Quality, Widely Recognized by Awards

Chen Ying has always been committed to the business philosophy of "integrity, professionalism, and quality" and always sources the best quality parts and the most durable components within the assembly of each product. Chen Ying is continually pursuing excellence, faces every product challenge with the most stringent attitude. Even though some details might not be important to some customers, Chen Ying will not compromise its product quality by making trivial short cuts.

With an insistence on overall quality, Chen Ying not only obtained BSI's ISO 9001 quality certification and CE certifications, but also received Taiwan Excellence Award and Golden Hand Award. These are all examples of the recognition earned by Changhua Chen Ying and this continued recognition is what maintains its status in the leading position for Taiwan's lubrication industry and into its growing global position.

Partner to the Machinery Industry, Walking Together Towards the World's Stage

Through the 35 years journey, Chen Ying has developed a solid relationship with many industry partners and suppliers. Everyone is invited to walk together with Chen Ying onto a global stage where "integrity, professionalism, and quality" are valued.

TABLE OF CONTENTS

Accessories	P 1 ~P24
All kinds of adapters, swivels, pressure gauges, pressure switches, magnetic sensor reed switch , oil filters, pipes, pipe clips, tube bender , etc.	
Oil Pumps, Horizontal/Vertical Motors and Coolant Pumps	P25~P32
Rotary Oil Pumps, Heavy Oil Pumps, Suction Pumps, Electro-Magnetic Pumps and Gear Pumps	
Oil/Grease Distributors and Oil-Mist Spray Gun	P33~P46
OM Oil-Mist Spray Gun , UA Type Distributor , CCB Large Volume Piston Distributor , CEB Type Grease Volume Distributor , Resistance/Pressure-Relief Type Distributor, CV Progressive Feeders, CO/OA/OC Type Oil-air Volume Distributor	
Resistance Type Lubricators	P45~P60
1.Manual Type : CLA, CTA, CKE	
2.Electric Type :	
→PLC Controlled : CEN01, CESG01 , CEV Type	
→Timer Controlled : CESP, CESH, CESD, CESW, CEN02, CESG02 , CES Series, CENA, CEA Type	
→Interval Time Fixed - CES Series : CESA/B, CESMA/B, CESC, CESS Type	
※Distributors for CES Series : A/AE Type, B Type and Proportion Adapters	
※Distributors for all Resistance Type Lubricators : A/AE Type, B/CB/AB Type, CV Progressive Feeders, Proportion Adapters and OM Oil-Mist Spray Gun	
Pressure-Relief Type Lubricators	P61~P69
1.Manual Type : CLAB Type	
2.Electric Type :	
→PLC Controlled : CEN03, CESG03 , CEVB Type	
→Timer Controlled : CEWB , CEN04, CESG04 , CENB, CEAB Type	
※Distributors for Pressure-Relief Type Lubricators : CAB, CBB, CCB , CDB, T Type, CO, OA Type, and CO-1 Oil-Air Volume Spray Gun	
Grease Type Lubricators	P70~P84
1.Manual Type : CLHA and CLHP Type	
2.Electric Type :	
→PLC Controlled : KSC, KSCP , KGH , KGA , KGC , KGCP , KGB , KGBP , KGVB Type	
→Timer Controlled : KSB, KSBP , KGN , KGNP , KGNB , KGNBP Type	
3.Pneumatic Type : MAG Type	
※ Distributors for Grease Type Lubricators : A/AE Type, B/CB/AB/BB Type, CEB Type, CV Progressive Feeders and CPS/CPB Proportion Adapters.	
Oil-Mist Type Lubricators	P85~P87
1.Electric Type :	
→PLC Controlled : CEN24 and CEN25 Type	
→Timer Controlled : CEN22 and CEN23 Type	
2.Pneumatic Type : COM Type With OB Type Spray Gun	
Pneumatic Type and Oil-Air Type Lubricators	P88~P90
※Distributors for PNA Resistance Type Lubricator : A/AE Type, B/CB/AB Type, CV Progress Feeders and Proportion Adapters	
※Distributors for PNB Pressure-Relief Type Lubricator : CAB, CBB, CDB and T Type	
※Distributors for COA Oil-Air Type Lubricator : CO, OA Type and CO-1 Oil-Air Volume Spray Gun	
※Distributors for POA Pneumatic Oil-Air Lubricator: OC Type Oil-Air Volume Distributor	
Circulating Oil Type Lubricators	P91~P97
1.Electric Type :	
→PLC Controlled : CEH, CEU, CLS, CLSA/B and CLST Type	
→Timer Controlled : CEF Type	
※Distributors for Circulating Oil Type Lubricators : A/AE, B/CB/AB Type, CV Progressive Feeders and Proportion Adapters	
Other Lubrication Products	P98~P99
Air Operated Oil Filler, Grease Filler and Adjustable Automatic Grease Lubricator	
Appendix	P100~P102
Resistance Type Lubrication Piping System and Pressure-Relief Type Lubrication Piping System	

History of Company

- 1971 Chen Ying Industrial Co. Ltd. was founded on No.3, Ln.129, Zhonghua. W. Rd, Changhua City, with capital of 100 thousands NT Dollars. Chen Ying was engaged in assembling and processing small Presses for Ching Fong Machinery Industry Co., Ltd.
- 1974 Chen Ying started to focus on manufacturing Centralized Lubrication System products of manual lubricators and accessories.
- 1978 In order to expand the business, Chen Ying Industrial Co., Ltd. had changed to Changhua Chen Ying Oil Machine Co., Ltd. and added two millions NT Dollars to the capital. The company continued to manufacture Centralized Lubrication System products.
- 1979 CES Type Resistance Electric Lubricator and CLS Type Circulating Electric Lubricator were launched into the market.
- 1980 As the business kept growing, the space of original factory was not enough for expanding the production lines. In order to boost the production capacity, Chen-Ying relocated on No.31, Lane. 301, Xiaoyang Rd., Changhua City.
- 1981 The capital was increased to six millions NT Dollars, and CEA Type Resistance Electric Lubricator was launched into the market.
- 1985 The capital was increased to ten millions NT Dollars.
- 1995 The capital was increased to twenty-eight millions NT Dollars. Chen Ying relocated in new factory in Wuchi Town, Taichung City.
- 1993 Chen Ying products had been certified by Bureau of Standards, Metrology & Inspection, M.O.E.A., R.O.C. for ISO 9002: 2000/CNS 12682, The Quality Certifications.
- 1996 CEN series lubricators received Taiwan Excellence Award and obtained the patents of "microcomputer-controlling device for lubricators" from Taiwan, China, and Japan.
- 1997 Chen Ying products had been certified by TUV Rheinland Group, and obtained the MSD, LVD and EMC of CE certification.
Chen Ying had become the exclusive agent in Taiwan for Willy VOGEL AG lubrication products and had mutual technical cooperation.
The Pressure Switches for lubrication system were launched into the market, and obtained patents from Taiwan and China.
- 1999 The Oil-Air Distributors were launched into the market and obtained the patents from Taiwan and China.
- 2001 The CV Type Progressive Feeders were launched into the market, and obtained the utility model patent from Taiwan.
- 2002 Chen Ying products had been certified by Bureau of Standards, Metrology & Inspection, M.O.E.A., R.O.C. for ISO 9001: 2000/CNS 12681, The Quality Certifications.
- 2004 Chen Ying obtained the utility model patent for "Improvement of Electric Pressure-Relief Lubricator with Fixed Discharge Volume" from Taiwan.
Chen Ying launched E-Marketing, including animation displays of products and E-Catalogue, etc.
- 2005 The project of High-Pressure Electric Grease Lubrication System received the subsidy of "Conventional Industry Technology Development" from Industrial Development Bureau Ministry of Economic Affairs.
The project of Pressure-Relief Electric Grease Lubrication System received the subsidy of Small Business Innovation Research.
CESH Single Time Adjuster Type Electric Lubricator was launched into the market, and received the utility model patent from Taiwan.
Resistance and Pressure-Relief type of Pneumatic Electric Lubricators had earned the acclaim of machinery industries.
Chen Ying received quality certification of ISO9001: 2000 from BSI Group.
- 2006 CESP Dial Type Electric Lubricator was launched into the market, and obtained the utility model patent from Taiwan.
Manual and Electric Grease Lubricators with Hard Spring Type and Grease Tube Type were launched into the market.
Heavy Oil Pumps were launched into the market. The quality, customer service and delivery had earned positive feedback from our customers.
- 2007 CESG Economical Electric Lubricator was launched into the market, and obtained the utility model patent from Taiwan.
The project of Pneumatic Grease Lubricator Research received the subsidy of "Conventional Industry Technology Development" from Industrial Development Bureau Ministry of Economic Affairs.
Chen Ying received "Golden-Hand Award" of Taichung County that honored Chen Ying as an outstanding small-and-medium-size enterprise.
- 2008 KGH Grease Electric Lubricator was launched into the market, and obtained the utility model patent from Taiwan.
MAG Pneumatic Grease Lubricator was launched into the market, and obtained the utility model patent from Taiwan.
Oil-Mist Spray Gun was launched into the market, and obtained the utility model patent from Taiwan.
- 2009 The project of Pneumatic Oil-Mist Lubricator Research received the subsidy of "Conventional Industry Technology Development" from Industrial Development Bureau Ministry of Economic Affairs.
Chen Ying website had been updated to the new version and added downloadable E-Catalogue, online inquiry service, and trade show announcements, etc.
- 2010 COM Oil-Mist Type Resistance Lubricator was launched into the market, and obtained the utility model patent from Taiwan.
- 2011 The range of accessories has been expanded, including the Tube Bender, Magnetic Oil Flow Indicator, and CCB Type Large Volume Distributors, etc.
- 2012 KGB Type Pressure-Relief Grease Electric Lubricator, KGC Type Resistance Grease Electric Lubricator and CEB Type Volume Distributor were launched into the market and obtained patents from Taiwan, Japan and China.
- 2013 Grease Cartridge Series Lubricator and POA Type Pneumatic Lubricator were launched into the market.
- 2014 New KGBP-07 Type and KGCP-07 Type Grease Electric Lubricators have been launched into the market.
